It all started with the accident. The one that caused Sophie's dad to walk out of her life. The one that left Sophie's older sister, Meredith, barely able to walk at all.

With nothing but pain in her past, all Sophie wants is to plan for the future--keep the family business running, get accepted to veterinary school, and protect her mom and sister from another disaster. But when a hurricane forms off the coast of North Carolina's Outer Banks and heads right toward their island, Sophie realizes nature is one thing she can't control.

After she gets separated from her family during the evacuation, Sophie finds herself trapped on the island with the last person she'd have chosen--the reckless and wild Finn Sanders, who broke her heart freshman year. As they struggle to find safety, Sophie learns that Finn has suffered his own heartbreak; but instead of playing it safe, Finn becomes the kind of guy who goes surfing in the eye of the hurricane. He may be the perfect person to remind Sophie how to embrace life again, but only if their newfound friendship can survive the storm.
